

Pt500 Pocket Sensor with Connecting Head

Replaceable sensor insert

Delivered as a set

2 or 4 wire connection

Application

A sensor pair is used together with electronic heat meters for measuring return and flow pipe temperatures in heating installations.

The sensor has a built-in platinum resistor with an electric resistance, which changes with the temperature. Measuring the resistance value gives an analog indication of the temperature.

A heat meter calculates the differential temperature of a heating installation on the basis of measured forward and return temperatures. Based on the differential temperature and the volume of liquid measured, the energy consumed can then be determined.

Technical data

	Sensor insert
Element	Pt500 according to IEC 751B
Δt deviation (pairing)	0.04°C
Pairing	40°C and 130°C, control/sample at 85°C (depending on approval)
Temperature of medium	0...150°C, short-term 160°C
Ambient temperature	-10...70°C
Storage & transportation temperature	-25...70°C
Response time $\tau_{0.5}$	Max. 25 sec.
Medium	Heating water
Humidity	<98% RF condensing
Pressure level	Pocket
Flow velocity	Pocket
Diameter	ø5.8 mm
Sensor tube length	45 mm
Silicone cable	2 x 0.5 mm ²
Sensor tube material	AISI 304, W-no. 1.4301
Density	IP65

POCKETS

Temperature of medium	0 - 160°C
Medium	Heating water
Pressure level	PN25
Flow velocity	Max. 3 m/sec.

Diameter	8 mm
Length	90, 140 and 180 mm
Connection	R ½
Nipple material	AISI 304, W-no. 1.4301
Sensor tube material	AISI 304, W-no. 1.4301

Fitting examples

CONSTRUCTION

Fitting examples

EXAMPLE 1

Pocket sensor, mounted in “T”

EXAMPLE 2

Pocket sensor mounted in “T” with 45° angle

Electrical connection

2 WIRE

4 WIRE

Sealing example

Sealing of a pocket sensor with a connecting head.

Dimensional drawing

SENSOR INSERT

SENSOR POCKET WITH A CONNECTING HEAD

Length (L): 90, 140 or 180 mm

Connecting cable

CAP MATERIAL

Order specification

SENSOR INSERT (PAIR)

TYPE No.*	DESCRIPTION
65-56-40-XXX	Pt500 sensor insert (2 pcs.) for pocket with connecting head. Is used for pockets with a length of 90, 140 and 180 mm.

SENSOR POCKET WITH A CONNECTING HEAD

TYPE No.	DESCRIPTION
65-56-02-300	Sensor pocket with a connecting head, length = 90 mm
65-56-03-300	Sensor pocket with a connecting head, length = 140 mm
65-56-04-300	Sensor pocket with a connecting head, length = 180 mm

* Type numbers may vary due to local approvals
